

# Complex Regional Pain Syndrome (CRPS)

## Bath Rehabilitation Programme Study Day

Royal United Hospitals Bath   
NHS Foundation Trust

**Thursday 21<sup>st</sup> September 2017 8.30am- 4.30pm**

**Royal National Hospital for Rheumatic Diseases, Bath**  
**£80 per head (includes refreshments and buffet lunch)**

*This study day offers an excellent opportunity to find out more about the Bath CRPS programme and practical treatment techniques used in this condition. The event is supported by the CRPS UK Clinical & Research Network.*

The Royal National Hospital for Rheumatic Diseases is a national centre for the management of Complex Regional Pain Syndrome, providing outpatient and inpatient care. The Bath CRPS programme is led by a highly specialised multi-disciplinary team.

The day consists of a combination of presentations by the clinical team and smaller interactive group workshops. The workshops will focus on therapy techniques and approaches that can be applied to your practice.

Topics covered include:

- ❖ Bath CRPS programme general principles
  - ❖ Patient pathway
  - ❖ Patient experiences
  - ❖ CRPS guidelines
- ❖ Pros and cons of intervention in pain
  - ❖ Psychology and CRPS
  - ❖ Body perception disturbance
  - ❖ Mirror visual feedback
- ❖ Promoting behavioural change
  - ❖ Neurocognitive approaches

“Excellent value for money”

“Brilliant course and very encouraging – extremely beneficial”

“Good to hear from such an enthusiastic and motivated team”

Please visit [www.crpsnetworkuk.org](http://www.crpsnetworkuk.org) to download an application form, or email [lisa.buckle@nhs.net](mailto:lisa.buckle@nhs.net)

**Closing date is Friday 8<sup>th</sup> September 2017**

*Please note: the course programme is similar to that held in April 2016*
